RFP No. 041-T-2020 (P)

---

Pursuant to 31 V.I.C. 239 (a) (4) and Rules and Regulations thereunder issued, the Government of the Virgin Islands, herein after referred to as GVI, Department of Property and Procurement will receive proposals for the work described below. Proposals will be received no later than *Thursday, July 9, 2020 @ 4:30 PM o'clock p.m.* Atlantic Standard Time.

**DESCRIPTION OF WORK:** *Territorial Emergency Operating Plan (TEOP)*

**SCOPE OF SERVICES:** See attached

## **NEGOTIATED PROCEDURES:**

The Commissioner of the Department of Property and Procurement will appoint a Selection Committee to assist in the evaluation and selection of the Contractor. Accordingly, current data on qualifications and performance should be submitted with proposals. After reviewing the qualifications and proposals the Committee will select for discussions from the firm/s or person/s considered not less than three (3), in order of preference, **deemed to be most highly qualified to provide the services herein required.** Discussions will be conducted successively and severally with the firms or persons so selected the anticipated concepts and the relative utility alternative methods of approach for furnishing the services hereunder.

## **FACTORS FOR DISCUSSIONS**

Selection criteria will include **(i)** Professional qualification, registration and general reputation of principals of the firm or person; **(ii)** the extent to which the firm or person specializes in or has provided services of a type and scope similar to the hereunder; **(iii)** familiarity with the location (s) in which services will be performed; **(iv)** capability of meeting schedules; and **(v)** quality of performance on other similar projects.

## **NEGOTIATION:**

The Selection Committee shall recommend to the Commissioner **the highest qualified firm or person with whom a contract shall be negotiated.** The Commissioner, with the assistance of the Selection Committee, shall attempt to negotiate a contract with such firm or person.

Should the Commissioner be unable to negotiate a satisfactory contract with the firm considered to be the most qualified, at a price he determines to be fair and reasonable to the Government, negotiations with that firm will be formally terminated. Negotiations will then commence with the second most qualified, the third most qualified or additional firms, in order of preference, and shall continue until an agreement is reached.

Anthony D. Thomas  
Commissioner  
Property and Procurement

## **INSTRUCTION TO PROPOSERS**

### **A. NOTICE**

#### **RFP-041-T-2020 (P)**

Information provided in the scope of work is to be used only for purposes of preparing a proposal. It is further expected that each bidder will read the scope of work thoroughly, for failure to meet certain specified conditions may invalidate the proposal.

The Government of the Virgin Islands, herein after referred to as GVI, reserves the right to reject any or all proposals or any portion thereof and to accept the proposal deemed most advantageous to GVI. # **Virgin Islands Territorial Emergency Management Agency Territorial Emergency Operations Plan (TEOP)'s Scope of Work**

# Scope of Work Summary

## I. Client Overview

VITEMA is the territorial agency with primary responsibility for ensuring the territory's resilience to disasters. VITEMA's staff of professional planners, communications specialists, logicians, operations managers, and support personnel is committed to an all-hazards approach to emergency management.

By building and sustaining effective partnerships with federal, state and local government agencies, and with the private sector - individuals, families, non-profits, and businesses- VITEMA ensures the Territory's ability to rapidly recover from large and small disasters by assessing and mitigating hazards, enhancing preparedness, ensuring effective response, and building the capacity to recover.

## II. Purpose

VITEMA is seeking a Consultant to update the 2020 Territorial Emergency Operations Plan. Recently, FEMA has restructured the Emergency Support Functions into a Community Lifeline approach. VITEMA was able to incorporate the lifelines into our 2019 TEOP update, but going forward with this update, the agency would like for the plan to have a more Comprehensive planning scope to illustrate the restructure. A copy of the 2019 TEOP is located on the VITEMA website in the Key Documents Tab. The Consultant will also be tasked with addressing the Emergency Operations Plan and the Continuation of Operations Plan within this document. The Consultant will assist with the implementation and management of the plan. The Period of Performance (POP) is a six (6) month base award with one renewal option.

### **a. Emergency Management Planning**

- i. Develop specific steps to avoid risk and resume operations in the aftermath of a catastrophic natural disaster or national emergency. Measures to include but not be limited to:
  1. Prevention - Property and lives protection by identifying and deterring an incident from occurring.
  2. Mitigation - Reduce the chance of an emergency happening or reduce the damaging effects of unavoidable emergencies.
  3. Preparedness & Training - VITEMA's ability to respond when a disaster occurs

4. Response - Emergency Operation plan that enables efficient coordination of resources and response action to carry out immediately before, during, and after a hazard impact with the focus on saving lives, reducing economic loss, and alleviating suffering.
5. Recovery - It starts after the immediate threat to human life has subsided, intending to bring the affected area back to a degree of normalcy.
6. Information & Communication - Procedures and best practices to ensure an effective response operation.

### III. The scope for the services is as follows:

- a) Work in tandem with GVI to provide comprehensive planning service and project management for the Territorial Emergency Operations Plan while incorporating FEMA's Community Lifelines, which allows the impacts to be analyzed by the various lifelines and develop priority focus areas for each operational period during a response. For more information, see <https://www.fema.gov/lifelines> It allows the identification and communication of complex interdependencies to identify major limiting factors hindering stabilization. The chosen Contractor would need to understand the National Response Framework's use of lifelines in response planning.
- b) Format for the TEOP must match the current Emergency Management Standard published by the Emergency Management Accreditation Program (EMAP) for specific areas of responsibility for performing functions in response to an emergency / disaster (section 4.4.3 in 2016 standard). Standard is available at web site <https://www.emap.org/index.php/root/about-emap/96-emap-em-4-2016>. Update of the standard is anticipated in 2020.
- c) Develop and/or update the seven (7) Annexes that VITEMA is required to update annually, which include the following core areas:
  - i Active Shooter
  - ii Hazmat-Release Chemicals
  - iii Cyber Attack
  - iv Hurricane/Tropical Storm and Flooding
  - v Earthquakes
  - vi Tsunamis
  - vii Pandemic-Human

These seven focus areas are all mentioned in the Territorial Emergency Operations Plan but have not been developed in its entirety. The Contractor would be tasked with the development of each Annex to ensure all necessary capabilities are documented as well as ensuring they are presented on a comprehensive, holistic, dynamic document.

- d) Develop a detailed work breakdown structure and provide a project plan identifying all tasks required to complete the original baseline scope of work. It is imperative that the project plan data can be exported and is compatible with intake within GVI tools.
- e) The project plan should be accompanied by a description of the standard methodology and framework that will be utilized for the schedule management of VITEMA's timeline for the plan update. Working in tandem with VITEMA, tasks should be estimated for the duration, and resources should be allocated. This will ensure project plan analysis can be completed, including, but not limited to, identifying the project's dependencies, critical path, and any resource constraints that could impact the completion of the project within baselined timelines. In the event of approved change requests, it will be required that the Project Plan be modified and rebase lined to include the tasks associated with the approved change request.
- f) To support the development and management of the planning team, additional deliverables to include, but not limited to, hierarchical charts, responsibility assignment matrix, RACI charts, and resource leveling in the Project Plan should be developed.
- g) Interact with local, state, and federal government agencies, including agencies responsible for project management and operational activity.
- h) Develop a communication management plan that defines the project's communication requirements and outlines how the information will be disbursed to all project stakeholders. The communication management plan should include, but not limited to, a communications matrix, project team directory outlining the contact information for all stakeholders directly involved in the project, in-depth guide outlining the frequency and how meetings will be conducted, meeting communication rules, constraints (internal or external) that could impact communications, and identify how sensitive/confidential information is communicated, to include authorization expectations.
- i) Develop standard templates that the project will leverage for all communication within the project team and stakeholders within local, state, and federal government agencies.
